Bank Name: Wal-Mart
Bank Addr:
Bank City: Bentonville
Bank State: AR

I fully and strongly support wal-Mart's attempts and needs to be allowed certain banking functions for their specific business needs of processing checks and debit/credit card transactions. Several other business do this or have similar banking functions needed to sustain business and profitability. Target already does this. General Motors has their finance wing GMAC and the list could continue. Thank you for your support in these matters presently and in the future.
